September 18, 2014

The Honorable Paul Ryan
U.S. House of Representatives
1233 Longworth House Office Building
Washington, DC 20515

Dear Chairman Ryan:

The Charitable Giving Coalition, representing a broad cross-section of nonprofit organizations across the country, thanks you for publicly recognizing the value of the charitable deduction. Your recent, public comments acknowledge that the charitable deduction is different than other itemized deductions in that it encourages individuals to give away a portion of their income to those in need. It rewards a selfless act and ensures a greater amount of charitable donations to charities to fund their philanthropic missions that provide innumerable benefits throughout our communities.

We did want to share with you that we have concerns about some of the proposed changes to the deduction included in Representative Camp’s Tax Reform Act of 2014. Specifically, we believe the two percent of adjusted gross income (AGI) floor for charitable gifts would dramatically decrease giving, particularly to those charities that largely rely on small, private donations. One survey indicated that the charitable sector would lose $3 billion per year in charitable contributions if a two percent (AGI) floor were imposed. We also are concerned about streamlining the AGI limitations which would disincentivize cash gifts in favor of gifts of property, and then, limiting the deductions of most contributions of property to basis, rather than fair market value. Taken together, these proposed changes could potentially eliminate the charitable deduction for 95% of all taxpayers.

The charitable sector and those served by our charities continue to feel the effects of the recession, and we are just now seeing an uptick in both charitable contributions and philanthropic programs and services. Now is not the time to experiment with the charitable deduction.

---

We again thank you for your support of the charitable sector and the invaluable deduction that spurs giving. We look forward to working with you and your staff on this important issue as tax reform continues to take shape.

Sincerely,
